

Debbie Brady

PHOTOGRAPHIC ART

RESUME

Profile

Results-oriented graphic-design professional with over 20 years experience successfully serving businesses across Canada and internationally at sole-proprietor boutique firm, Graphically Speaking. Adept at directing photoshoots for print and digital solutions. In 2013 began journey to become skilled behind the camera instead of next to it, garnering awards early on. Enjoys a variety of photographic genres but passionately and professionally gravitated to abstracts. Living in Tyne Valley, PEI—located on the Canadian Oyster Coast and home to the Canadian Oyster Shucking Competition—photographing oyster shells was a natural fit. Created “Oyster Art”: a niche collection of photographic abstracts using very specialized macro photography techniques to capture nature’s beauty hidden in small areas of an oyster shell. Clients in US and across Canada. Large format artwork, (rag cotton, gallery canvas and acrylic) invites viewers into a miniature world they may otherwise never explore.

Education
